

# B-Home System

---

*Feel home: whenever, wherever*

# B-Home is...

---

## Safe

*The system protects your home at any time and gives you a sensation of security, whether you are at home or away.*

## Surprising

*The app enables you to easily include the many supported devices into scenarios making your smart home even more individual.*

## Efficient

*B-Home manages your heating and it helps you save energy without making you miss warmth and comfort.*

# B-Home System

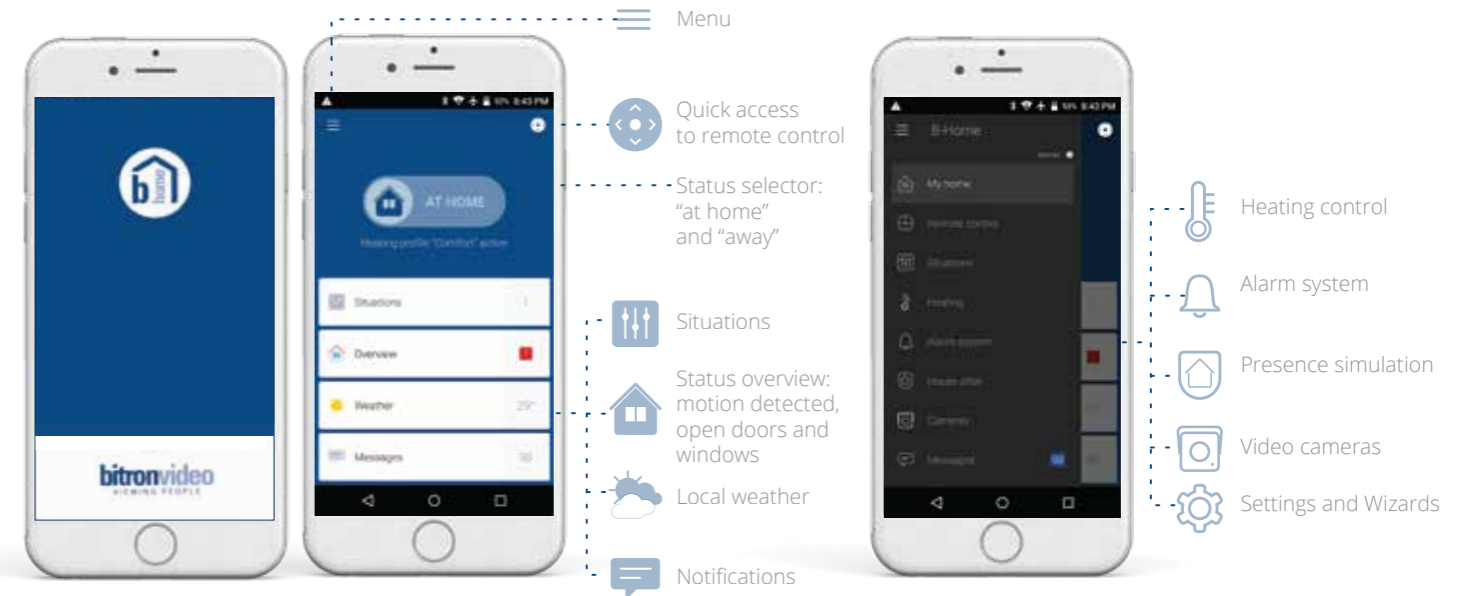

B-Home combines the advantages of an intelligent home control with those of an alarm system. The home base is the heart of the system to which you can connect an unlimited number of wireless sensors and actors, IP cameras, lights, kitchen appliances, and entertainment devices.

The B-Home App provides you with an overview of the status of all connected devices and it lets you create individual scenarios, control the burglar alarm, manage the heating, and monitor the consumption of your appliances. Anytime, at home and from remote.

# B-Home App

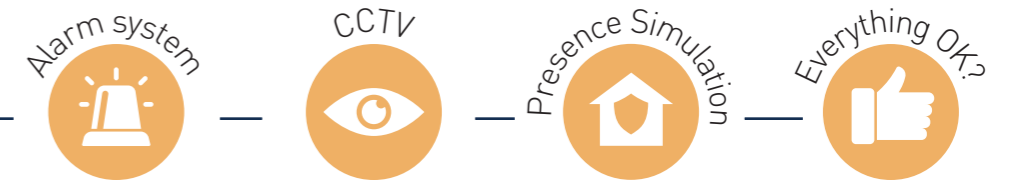

The B-Home App allows you to set-up and manage the B-Home System in an intuitive and easy way. After a quick registration of the system and guided pairing procedure for the devices, you will be ready for smart home: create your own rule to define what is going to happen when you leave home or create stunning light scenarios for a romantic evening. You can decide with a simple touch and make the system follow your individual demands and ideas.

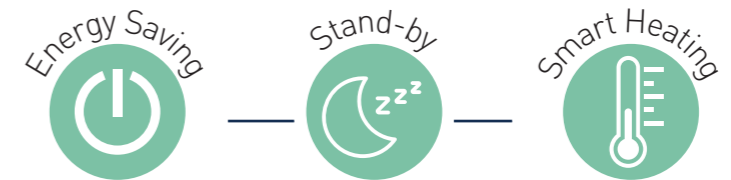

<p><b>RELIABILITY</b></p> <p>B-Home is based on QIVICON, the leading smart home platform in Europe</p> <p>The local system will work normally, even if the Internet connection is interrupted</p>	<p><b>DATA PROTECTION</b></p> <p>Bi-directional and encrypted communication between all devices</p> <p>Encryption for all cloud services and server location Germany</p>	<p><b>FULL COST CONTROL</b></p> <p>No recurring fee, no fee for adding new devices</p> <p>No time limit for the use of devices, home base, and app</p>	<p><b>PLUG &amp; PLAY</b></p> <p>Wireless system ideal also for rented apartments</p> <p>Easy adding of new devices using the app's graphical wizard</p> <p>The home base works with any Internet connection</p>
<p><b>UNLIMITED POSSIBILITIES</b></p> <p>Broad selection of Bitron Video devices</p> <p>Continuously growing amount of partner products from leading brands</p>	<p><b>REGULAR UPDATES</b></p> <p>Free and regular updates for app and home base</p> <p>Automatic updates of connected devices (if supported by device)</p>	<p><b>18 MONTHS CLOUD LICENSE</b></p> <p>Cloud services comprise notifications, remote access, cloud storage for videos, ...</p> <p>Free for 18 months, then licenses available for 6/12/24 months</p>	<p><b>AUTOMATION</b></p> <p>Alarm system, presence simulation, heating control</p> <p>Design your individual scenarios with just a few touches in the app</p>
